

Dear Candidate,

Thank you for your interest in becoming a tutor at Polaris Cambridge. In order to gauge whether We would be a good fit for you, please fill out our short Initial Questionnaire. We certainly don't expect an essay from you - a sentence per question will perfectly suffice, but please do be honest! Remember, it is our pleasure to hear from you, and we respect that not every Mentor will have lots of previous experience or perfect grades, neither of which are required! It is all about finding a good fit, both for you, and for our students.

1. What University degrees do you hold, from which Universities, and with what grades? Are you currently pursuing a PhD/MBA/post Master's education?
2. Which specific subjects are you confident in tutoring? (e.g. thermodynamics, analysis, middle school natural sciences, etc.)
3. Do you have any previous tutoring or teaching experience? Please provide details.
4. Can you commit to working with us for at least 4 months, for at least 2 hours a week?
5. Are you comfortable using online platforms for tutoring sessions? Do you have an iPad/tablet from which you could give online lessons?
6. What do you believe is the key to building a successful tutor-student relationship?
7. Why do you want to work with our agency specifically?

Thank you for taking your time to apply. Please send the filled out document to [join@polaris-cambridge.co.uk](mailto:join@polaris-cambridge.co.uk). We will get back to you in around 3 days with an invite for a video interview.
